The Vague Academic

Prof retired, I don’t miss meetings,
where men dived for resonance
and women proved equal

to Aristotle himself in framing
exhausting catalogs. Worst were
leaden seminars where faculty pre-

ambles to questions of fog-
bound speakers stretched beyond

boundaries of snooze. I’d like to show
you where this wasn’t so, on TV. When
Wolfowitz or Pearle addressed NYU, think

it was,young professor began his question
something like *You sleazy sonofabitch!*
You ought to be tried as a war criminal!

Example offer I for joyful brevity’s sake.
So, now, Wolfowitz OR Pearle? you
rightly ask. I just can’t remember.

Either Neo-Twin’d spend your
children’s blood for theory,
spinning gold from such.
